

Sports Premium Impact Statement 2019 – 2020

Impact of Covid-19 on sports premium spending

Due to the closure of school for over a third of the year we were unable to spend our full sports premium allocation. The government have given schools permission to carry the remaining budget over into the next academic year on top of the funding for the year 2020/2021. This means we have some additional money to invest into school sport. We have begun by providing additional PE lessons for KS1 and KS2 and the purchase of some new equipment.
